## Confirmation of Performance: BMT/MTE/F15022/C

### Megrime Medis

Kirtimu Str 37a  
Vilnius  
Lithuania

This document confirms that an independent review and calculation has been performed to confirm the whole window U-Value ( $U_w$ ) for the specification contained in this report.

Results were obtained using the following methods:-

- BS EN 673: 2011 Glass in building – Determination of thermal transmittance (U value) – Calculation method
- BS EN ISO 10077-2: 2012 Thermal performance of windows, doors and shutters – Calculation of thermal transmittance Part 2: Numerical method for frames;
- BS EN ISO 10077-1: 2006 Thermal performance of windows, doors and shutters – Calculation of thermal transmittance Part 1: General.

Values for the sample size 1.23m wide x 1.48m high

| Product calculated             | Vertical sliding sash windows  |                          |
|--------------------------------|--|--------------------------|
| Calculation                    | Technical description  | Result                   |
| Whole Window U-Value ( $U_w$ ) | Option 3: Vertical sliding sash window (60mm sashes) with spring balances in sashes and Glazing system 1 | 1.3 W/(m <sup>2</sup> K) |

The legal validity of this report can only be claimed on presentation of the complete report.
